SUPPORTIVE HOUSING SERVICES QUARTERLY REPORT

SUBMITTED BY (COUNTY): MULTNOMAH

FISCAL YEAR: 2023

QUARTER 3

SUPPORTIVE HOUSING SERVICES

QUARTERLY REPORT

The following information should be submitted **45 calendar days after the end of each quarter**, per IGA requirements. When that day falls on a weekend, reports are due the following Monday.

	Q1	Q2	Q3	Q4
Report Due	Nov 15	Feb 15	May 15	Aug 15
Reporting Period	Jul 1 – Sep 30	Oct 1 – Dec 31	Jan 1 – Mar 31	Apr 1 – Jun 30

Please do not change the formatting of margins, fonts, alignment, or section titles.

Section 1. Progress Narrative

In no more than 3-5 pages, please tell us about your investments and programming during the reporting period, focusing on at least one of the following topics per quarter: racial equity, capacity building, regional coordination and behavioral health, new investments, leverage, service systems coordination or any other topic connected to your local implementation plan. Please also provide updates and information (including numbers or data) to demonstrate progress towards your work plan goals. Note that each topic/work plan goal must be covered in at least one quarterly report during the year.

[Example, if you set an annual goal to increase culturally specific provider organizations by 15%, please tell us by quarter 2 how much progress you've made towards that goal (e.g. 5%)]

Please also address these areas in **each quarter's** narrative.

Progress to Housing Capacity, Placement, and Prevention Goals

In Q3 the Joint Office partnered with several Multnomah County Departments and over 70 contracted community-based organizations to serve a total of 1,243 people:

- 757 people with eviction prevention
- 40 people with rapid housing placement
- 94 people with permanent supportive housing placement
- 342 people with emergency shelter

Combining all investments, systemwide Q3 outcomes show that thousands more were served in Multnomah County (see the JOHS System Performance Quarterly Report that aggregates all of the outcomes for each quarter). Progress is slower than expected with the annual SHS goals we set for this year; however, Q3 outcomes are strong and higher in most categories than in previous quarters. These outcomes make a difference in people's lives and demonstrate steady progress toward laying the foundation to meet our 10-year goals for SHS investment.

In Multnomah County's Local Implementation Plan (LIP), we set 10-year goals that will be achieved through the full implementation of SHS funds. These long-term, high-level goals are to add 2,235 Permanent Supportive Housing (PSH) apartments and voucher capacity to the county's overall portfolio, develop a homeless system that will annually place 2,500 people in PSH and Rapid Rehousing (RRH) programs, and annually deliver eviction prevention to 1,000 people. In alignment with these overarching goals, the immediate goals we have set in Multnomah County's FY 2023 Annual Work Plan are aligned to build the infrastructure and capacity required to achieve the overall goals for full SHS implementation.

As the JOHS closes out the third quarter of our second year of SHS implementation, we have worked to solidify the programmatic gains made since we first started receiving SHS funds. We have focused on

¹ The Joint Office of Homeless Services (JOHS) System Performance Quarterly Report retrieved from the JOHS Official Tableau Website on May 12, 2023 at: https://public.tableau.com/app/profile/johs/viz/JOHSSystem PerformanceQuarterlyReport-FY23Q2/Report

building out our capacity to place people into long-term supportive housing by expanding evidence-based programming such as the Frequent Users System Engagement (FUSE) pilot and new housing programs for justice-involved adults. Currently, we have achieved 51% of the 10-year PSH capacity goal. We are on track to meet systemwide goals to place 2,500 people in permanent housing and rapid rehousing annually and annually support 1,000 people with eviction prevention services.

Centering Racial Equity

The JOHS is tracking the rate of housing placement for Black, Indigenous, Latino/a/x, Asian, Pacific Islander, and other people of color as compared to Non-Hispanic White people. Centering racial equity is central to both the charge from Metro to use SHS tax dollars to reduce racial disparities in the regional homeless service system and in the commitment the JOHS has made to serve disproportionately overrepresented communities in Multnomah County's homeless service system at higher rates than others served in order to improve outcomes for overrepresented communities.

As part of this work, the JOHS has made the strategic decision to only serve population A households with the Regional Long-Term Rent Assistance (RLRA) program, and to prioritize Black, Indigenous, Latino/a/x, Asian, Pacific Islander, and other people of color for RLRA vouchers. In the FY 2023 year-to-date (YTD) SHS housing placement outcomes, out of 490 people newly placed into housing, 345 people (70%) were Black, Indigenous, Latino/a/x, Asian, Pacific Islander, and other people of color and 117 people (23%) were Non-Hispanic White people.² The JOHS will provide an in-depth analysis of these outcomes in our annual report.

Successful interventions we are using to center racial equity include implementing a culturally specific housing assessment program, investing in culturally specific affordable housing buildings, using a racial equity lens tool to inform investment decisions for programming, and obtaining a commitment from all providers in our network to address long-standing racial disparities in publicly-funded housing services.

Barriers to Program Launch and Expansion

The JOHS continues to experience barriers to implementation. One barrier is the continued challenge to expand and modernize data collection, contracting, training, and hiring processes internally at the JOHS and externally with an expanding provider network of over 70+ community-based organizations (CBOs). Some CBOs are experiencing persistent staffing shortages stemming from challenges with recruitment and retention. Across our CBO network, organizations are continually facing high staff turnover rates. These staffing shortages create delays in the launch and expansion of SHS programs, contributing to underspending. With a shortage of staff to implement programs, funds that are allocated for staffing and programs at the beginning of the fiscal year can remain underutilized.

Capacity Building

To address these systemic hiring and retention challenges, the JOHS has launched capacity-building and technical assistance initiatives that will continue through FY 2024. According to feedback from CBOs one

² 28 people (6%) did not share their race and ethnicity information.

of the main challenges is the traditional cost reimbursement model, which requires CBOs to spend money using their funds and receive a reimbursement after invoicing the JOHS. This system can be a barrier when a CBO doesn't have the capital beforehand to hire and launch programming. In response to this feedback, CBOs can now seek an allocation of capacity-building funds covering up to 60 days of their annualized operating budget in advance of invoicing. Additionally, the JOHS has developed a technical assistance (TA) grant program for CBOs. This allows organizations to access additional funds in several categories of TA that were based on a CBO survey completed this fiscal year. The following are some key areas for TA as identified in provider surveys:

- Human Resources
- Fiscal Business Services
- Strategic Planning
- Program Design, Development, Implementation, and Evaluation
- Policies and Procedures (other than fiscal and human resource)

At this time, the JOHS has awarded 21 CBOs in the community with TA grants and we are evaluating several more proposals from organizations in our network.

New Contracts

This year the JOHS has also been working to contract with more CBOs to increase system capacity. In our annual work plan for this fiscal year, we set a goal to contract with five new culturally specific organizations. At the end of Q3 JOHS has made substantial progress toward that goal by contracting with eleven new CBOs, four of which are culturally specific.

Expanding a system that creates effective outcomes takes time, and we are seeing the effects of laying a strong foundation for our homeless service systems of care. The rest of the report highlights some of the successes, challenges, and opportunities with the implementation of SHS funding.

Opportunities in this Quarter

Despite the overall challenges we face in the implementation of the Metro SHS measure, the JOHS has capitalized on several exciting opportunities during this quarter—including two new bridge housing programs, a new landlord incentive program, and the FUSE project.

Rockwood 8 Bridge Shelter with All Good Northwest

Located in Gresham, the Rockwood 8 Bridge Shelter opened in March 2023 and provides a "bridge" to people in the process of transitioning from homelessness into permanent housing. Nonprofit provider All Good Northwest operates the approximately 40-unit motel, which is leased by Multnomah County. In most cases, the adult-only households served at the shelter have been pulled from the adult Coordinated Access list based on their vulnerability score and have been matched to a soon-to-be-available PSH unit. While in the bridge shelter, they work with their housing placement case managers to acquire necessary documentation, complete applications, and take any additional steps

required to move into their prospective housing units. Shelter stays can be as short as a few weeks and as long as several months, depending on the situation.

This low-barrier shelter program prioritizes policies and practices designed to help people successfully remain there while they continue their progress toward permanent housing. In addition to the support provided to each guest by a housing case manager, All Good Northwest's on-site staff assists in the safety and support of these highly vulnerable individuals, many of whom are coming directly from extended periods of homelessness and are living with a range of significant disabling conditions. This aligns with the goals of the Metro Supportive Housing Services measure, which requires that 75% of SHS funds are devoted to people meeting the "Population B" definition of chronic homelessness.

Department of County Human Services Bridge Housing Pilot

The Department of County Human Services (DCHS) bridge housing pilot is an opportunity to get more families into stable housing by addressing a gap identified in the Multnomah Stability Initiative, a DCHS program that helps families facing economic challenges attain stability through a variety of flexible services. Families that are referred from the JOHS homeless family system are referred to the Multnomah Stability Initiative. Some of the program requirements screened out families experiencing homelessness and in need of these services; however, SHS funds provided an opportunity to address this long-standing gap. The bridge program will initially serve 25 families with rent assistance, skill building, and wraparound support for up to two years, connecting the efforts of the Multnomah Stability Initiative and the homeless family system.

Risk Mitigation Program for Property Owners

The Regional Risk Mitigation Program is a new landlord incentive program that was launched across the region in Q3. Fully funded by the Metro SHS measure, this program expands housing opportunities for people who have received Regional Long-Term Rent Assistance (RLRA) vouchers. The risk mitigation program was established by Clackamas, Multnomah, and Washington counties and is modeled after a similar Portland Housing Bureau program. This new program is an opportunity to provide financial protection to landlords who offer affordable housing to people experiencing or at risk of homelessness. The program reimburses landlords for eligible expenses, like repairing excessive damages to a unit or covering unpaid rent, for units that receive subsidies through the RLRA program. Administered by the Housing Development Center, this program supports the goals outlined in the Metro SHS Work Plan by allowing us both to house more people through PSH and help them retain their housing.

FUSE Pilot

Another new opportunity this quarter is the Frequent Users Systems Engagement (FUSE) pilot, a housing placement program that will serve 50 households in its first year. The FUSE pilot will use data to identify and create a by-name list of "frequent users" of jails, shelters, hospitals, and other emergency services. Participants in the pilot will receive RLRA vouchers and wraparound services. The FUSE approach is being utilized across the nation in cities like Denver and New York City, leading to positive housing and health outcomes for people who historically have cycled between multiple systems.

The initial Multnomah County FUSE analysis released in 2021 represented a major step toward understanding the scope of the issue in our community. The base population for this analysis looked at data from 2018 of 155,874 adults who were enrolled in Medicaid, engaged with homeless services, or were booked into the Multnomah County Jail system. From this population, a data match was conducted and found that less than 1% (1,371 people) were involved in all three systems. Of this group, 6% (74 people) were in PSH for at least a year. Based on further analysis, the FUSE report found that there were a set of 1,088 adults that were engaged in all three systems and would be eligible for PSH placement.³

This new FUSE pilot presents an opportunity to catalyze systems-level change by focusing on those that often 'fall through the gaps' in our current homeless service system. As of Q3, a cross-department work group finalized the program design, and the housing pilot is set to launch at the beginning of the next fiscal year.

Overall, the four opportunities described above represent the careful work the JOHS is leading to address long-standing gaps in our community to serve people who have needed assistance but did not have a county system to match their needs. The motel-based bridge shelter, FUSE model, regional risk mitigation program for landlords, and expanded housing stability programming for families represent significant future growth toward a holistic system serving population A households.

Successes in this Quarter

In addition to these opportunities, we are celebrating Q3 successes in our expansion of culturally-specific housing assistance, the PSH lease-up process, and Coordinated Access expansion.

Urban League of Portland Culturally-Specific CHAT Expansion

In Q3 the Culturally Specific Housing Assessment team launched as an expansion of the existing Coordinated Housing Access Team to assess seekers of culturally-specific services and get them into housing, which is a priority in Multnomah County's Local Implementation Plan.

"I've been homeless, living in tents on the street for several years, and had decided there was no help for me until I was told the Urban League had a culturally specific CHAT Team that could advocate for me. Thanks to the Urban League CHAT Team I have regained confidence, self-worth, and so much more. From day one I was encouraged and reassured that I can live a normal life. They were pleasant to talk to and I was handled with patience and understanding. I felt like a human being again ... Making that call changed my entire life. I am not homeless anymore. I am now a resident of the Hattie Redmond Apartments. Thank you Urban League for not giving up on me!" —NN

³ Corporation for Supportive Housing, Multnomah County FUSE Report, 2021. Retrieved from CSH's official website on May 8, 2023, at: https://www.csh.org/wp-content/uploads/2021/06/Multnomah-FUSE-Report-FINAL.WEB .5.25.pdf. See page 5 for an analysis of the local FUSE population.

Initially many participants were reluctant to disclose personal information and scored low on assessments, but the Culturally Specific Housing Assessment team has worked to build trust. Many participants have now become eligible for PSH and some have even been placed on the top 10 Coordinated Access for Adults list. After the assessment, the Culturally Specific Housing Assessment team stays connected with participants and provides supplies and resources until they are housed.

One of the key goals outlined in the LIP is to build additional permanent supportive housing opportunities that place historically marginalized people into housing. By the end of Q3, after months of momentum-building, the Joint Office has increased the permanent supportive housing opportunities in our system.

New Permanent Supportive Housing Projects

In February and March the Joint Office supported the opening of three new affordable housing programs. Some of these units were funded by the Metro SHS measure, and some were funded by the Oregon Housing and Community Services Permanent Supportive Housing program. All three programs will utilize SHS funds for project-based rental assistance and coordinated access referrals to these apartments. SHS funds will also be used to support operational costs, flexible client assistance, and staffing to ensure that residents are successful in their new apartments.

Emmons Place is a new building with 48 apartments of permanent supportive housing for people 55 and older in inner Northwest Portland's Historic Alphabet District. The project prioritizes seniors, veterans, Black, Indigenous, Latino/a/x, and other communities of color, and people with disabilities. All residents are served by Northwest Housing Alternative's onsite resident services coordinator, with additional services provided by Northwest Pilot Project and Native American Youth and Family Center (NAYA).

Hattie Redmond is a new building with 60 studio apartments in the Kenton Neighborhood of North Portland. This neighborhood is part of Albina, the historic center of Portland's Black/African American community. All units in the building are permanent supportive housing targeted to individuals who have experienced homelessness and seek culturally specific services for African Americans, reconnecting displaced residents to the Albina community. On-site services are provided by the Urban League of Portland.

Douglas Fir is a new building with 15 apartments in East Portland for people experiencing symptoms of serious mental illness and homelessness. New Narrative (formerly Luke-Dorf) owns and operates the site and has partnered with the Native American Rehabilitation Association (NARA) to prioritize housing for people receiving NARA's services. All of these programs will serve our most vulnerable community members who have experienced homelessness, have one or more disabling conditions, and are living with little to no income. The program design of these projects aligns with feedback from our community members, service providers, and people who have experienced homelessness. It also aligns with the goals of the Metro Supportive Housing Services measure, which requires that 75% of funds are devoted to this population.

Emerging Challenges and Opportunities

Below are some of the challenges that service providers are experiencing with implementing SHS programming in Q3.

Department of Community Justice RLRA Program

The JOHS and the Department of Community Justice (DCJ) are working closely together on a new PSH project for justice-involved adults. This program is representative of both challenges and opportunities involved in creating new programming. An opportunity presented with this project is a new partnership between DCJ and Oregon Health & Science University (OHSU) to develop long-term medical support for the program, which will support 12 PSH units at Argyle Gardens and 45 tenant-based RLRA vouchers in the community. The current challenge with this project is the screening process for new tenants. Providers are spending significant time in the appeal process to overturn initial denials of DCJ-referred participants. The JOHS recognizes this as an opportunity to build stronger working relationships with property managers and to create a county-wide strategy to better work with property managers through the application process.

Coordinated Access

Similarly, providers working with the Coordinated Access (CA) team are also experiencing delays in making placements into PSH units due to high-barrier screening procedures that deny housing to those with criminal histories. Site-based project managers are willing to reconsider denied applications if providers submit a letter of accommodation, but due to limited capacity and lack of training this has not been a straightforward process and has caused delays in leasing available project-based PSH apartments.

To address this challenge the CA team is working with Metropolitan Public Defenders (MPD) to provide legal assistance to providers with expungement and writing letters of accommodation. This partnership has been successful—109 clients received MPD legal services in Q3, and 372 total clients have received services in FY 2023. However, MPD's funding was exhausted in March 2023 and additional support was required to continue the partnership. Recognizing this, the Joint Office approved another \$30,000 in funding for MPD to continue its work and expedite the process of obtaining PSH housing for Coordinated Access participants so that we can continue to drive our PSH goals as outlined in the Metro SHS Work Plan.

Section 2. Data & Data Disaggregation

Please use the following table to provide and disaggregate data on Population A, population B housing placement outcomes, and homelessness prevention outcomes. Please use your local methodologies for tracking and reporting on Populations A and B. You can provide context for the data you provided in the context narrative below.

Data Disclaimer

HUD Universal Data Elements data categories will be used in this template for gender identity and race/ethnicity until county data teams develop regionally approved data categories that more accurately reflect the individual identities.

Section 2. B Regional Long-Term Rent Assistance Program

The following data represents a **subset** of the above Housing Placements data. The Regional Long-term Rent Assistance Program (RLRA) primarily provides permanent supportive housing to SHS priority Population A clients (though RLRA is not strictly limited to PSH or Population A).

RLRA data is not additive to the data above. The housing placements shown below are duplicates of the placements shown in the data above.

Please disaggregate data for the **total number of people in housing using an RLRA voucher** during the quarter and year to date.

	This C	(uarter	Year t	o Date

Gender Identity Categories in RLRA Data

A section of the above gender identity table is grayed out because these are not gender identity options within the Yardi database, one of the main databases used to capture RLRA data. A regional data team composed of members from Clackamas, Washington, and Multnomah counties are working together to update the data code in Yardi to incorporate the additional gender identity categories. As of FY23 Q3, this work is still in process.

Definitions:

The number of RLRA vouchers issued during the reporting period: Number of households who were issued an RLRA voucher during the reporting period. (Includes households still shopping for a unit and not yet leased up.)

The number of households/people newly leased up during the reporting period: Number of households/people who completed the lease-up process and moved into their housing during the reporting period.

The number of households/people in housing using an RLRA voucher during the reporting period: Number of households/people who were in housing using an RLRA voucher at any point during the reporting period. (Includes (a) everyone who has been housed to date with RLRA and is still housed, and (b) households who became newly housed during the reporting period.)

Context narrative (optional): In no more than 500 words, please share any additional context about the data you provided above on the RLRA program.

Section 2. C Subset of Housing Placements and Preventions: Priority Population Disaggregation

The following is a **subset** of the above Housing Placements and Preventions data (all intervention types combined), which represents housing placements/preventions for SHS priority population A.

	This C	Quarter	Year t	o Date

Context narrative (optional): In no more than 500 words, please share any additional context about the data you provided above on Population A/B.

Section 2.D Other Data: Non-Housing Numeric Goals

This section shows progress toward quantitative goals set in county annual work plans. Housing placement and prevention progress are already included in the above tables. This section includes goals such as shelter beds and outreach contacts and other quantitative goals that should be reported quarterly. This data in this section may differ from county to county and will differ year to year, as it aligns with goals set in county annual work plans.

Instructions: Please complete the tables below, as applicable to your annual work plans:

All counties please complete the table below:

Goal Type	Your FY 22-23 Goal	Progress this Quarter	Progress YTD
Shelter Beds	400	41	342

If applicable for quarterly reporting, other goals from your work plan, if applicable (e.g. people served in outreach, other quantitative goals)

Goal Type	Your FY 22-23 Goal	Progress this Quarter	Progress YTD
[ADD here]			

Context narrative (optional): In no more than 500 words, please share any additional context about the data you provided in the above tables.

Methodology to Track Shelter Bed Goal

The JOHS measures the programmatic capacity in HMIS of the active SHS-funded shelter beds. The programmatic capacity is the number of beds the provider reports as active in HMIS.

Section 3. Financial reporting

Please complete the quarterly financial report and include the completed financial report to this quarterly report, as an attachment.

In Q4, the spend report will include that funding in their respective programmatic areas and the Contingencies/Reserves will reflect the IGA required commitments. Stabilization Reserve equals 9% of Partner's total YTD expenses.

Per IGA Section 5.5.3 PARTNER STABILIZATION RESERVE, partner will establish and hold a Stabilization Reserve to protect against financial instability within the SHS program with a target minimum reserve level will be equal to 10% of Partner's Budgeted Program Funds in a given Fiscal Year. The Stabilization Reserve for each County will be fully funded within the first three years.

Ramp-Up/Spend-Down Plan - IGA 5.5.2.1)	INCLUDE THIS SECTION EVERY QUARTER AND IN THE ANNUAL REPORT.

wn Plan - IGA 5.5.2.1)		INCLUDE THIS	SECTION EVERY C	QUARTER AND IN THE ANNUAL REPORT.
	Expected % of Budget Spent per Quarter	Actual % Spent ^[5]	Variance	Comments Explain any material deviations from the Spend-Down Plan, or any changes that were made to the initial Spend-Down Plan
Quarter 1	10%	7%	3%	
Quarter 2	30%	11%	19%	
Quarter 3	30%	15%	15%	
Quarter 4	30%	0%	30%	
Total	100%	32%	68%	

For the purpose of comparing "Actual % Spent," Partner should utilize the "% of Budget" figure from the "Total Program Costs" row in the above Financial Report (i.e. excluding Contingency and Ending Fund Balance), as indicated in the formula.

Per IGA Section 8.3.3 REGIONAL STRATEGY IMPLEMENTATION FUND, each County must contribute not less than 5% of its share of Program Funds each Fiscal Year to a Regional Strategy Implementation Fund to achieve regional investment strategies.

Per IGA Section 5.5.4 CONTINGENCY, partner may establish a contingency account in addition to a Stabilization Reserve. The contingency account will not exceed 5% of Budgeted Program Funds in a given Fiscal Year.

A "material deviation" arises when the Program Funds spent in a given Fiscal Year cannot be reconciled against the spend-down plan to the degree that no reasonable person would conclude that Partner's spending was guided by or in conformance with the applicable spenddown plan.
